Fostering Migrants' Employment in the Construction Sector

## Our Aim

MITRUST aims to deliver an innovative digital tool to support migrants who would like to work in the Construction Sector to acquire the necessary language competencies, soft skills and safety behaviours on the construction site. MITrust project focuses on targeted open-source digital solutions and distance learning opportunities for migrants to enhance better career perspectives in an EU country. These opportunities will help them to enter the construction industry labour market avoiding social exclusion and marginalization.

Access to learning offerings and enhancement of employability are the most efficient ways for migrants' successful integration into the recipient EU societies.

## Our target groups

- Migrants
- VET Providers
- Tutors and trainers working with migrants
- Businesses & Construction Associations
- Employers and associations involved in Construction Sector
- Universities and Academics
- Public servants responsible for migrants
- National and Local media

## Duration

24 months

November 2021 - October 2023

 mitrust

Fostering Migrants' Employment in the Construction Sector

## MiTRUST tangible deliverables :

- A Glossary, an e-linguistic support tool with construction-related terminology
- The development of new "Soft Skills" curricula, targeted the needs of migrants in the construction
- A knowledge database, namely "ConstructionPedia" with multimedia training material
- A Self-assessment Tool for migrants to evaluate their current language competencies, soft skills, and behavior demanded on the construction site.
- A new innovative OER platform in the form of integrated software in all partner languages.

## MiTRUST main results:

- The analysis of construction sector specialties where migrant workers are mostly needed
- The enhancement of migrants' foreign language competencies and soft skills
- The increased use of digital tools, multimedia training materials, and Open Educational Resources
- The increment of the attractiveness of the sector to migrant workers via training
- The enhancement of migrants' employability in the construction sector
- The fostering of migrants' social inclusion in EU societies and their active participation in society.
- The reinforcement of synergies between VET stakeholders, Migrant Associations, and Construction Industries.
